Why ask about the RELIABILITY?
The RELIABILITY is a certificate which enables the operator to code the videotaped interaction using the N.V.A. methodology. This can be obtained surpassing with a positive outcome a task which consists in coding 10 mother-infant interactions on a period of 5 month. The N.V.A. Coder will therefore have the possibility to participate at research programs in the following fields: infant neuropsychiatry, psychology and education, working in a network which will include other operators using the same methodology.

Professor:
Prof. Carlo Lenti
Head of the Neuropsychiatry of Infancy and Adolescence Department
University of Milano

Prof. Cristina Riva Crugnola
Associated Teacher  Department of Psychology University of Milano-Bicocca

Dr. Alessandro Albizatti
Neuropsychiatrist  San Paolo Hospital

Dr. Monica Saccani
Neuropsychiatrist  San Paolo Hospital

Dr. Simona Gazzotti
Clinical Psychology  Department of Psychology University of Milano-Bicocca

Dr. Mauro Walder
Neuropsychiatrist San Paolo Hospital

Dr. Margherita Moioli
Neuropsychomotricist  San Paolo Hospital

Il corso è diretto a  Pediatri, Neuropsichiatri infantili, Psicologi, Terapisti della neuropsicomotricità dell’età evolutiva, Logopedisti, Educatori.

Segreteria scientifica:
Prof. Carlo Lenti e Dott.ssa Moioli Margherita

Maternal Infant Department
O.U. NEUROPSYCHIATRY
Head of the department: Prof. Carlo Lenti

Training course:
THE USE OF THE “NEUROPSYCHOMOTOR VIDEO ANALYSIS” (N.V.A.) METHODOLOGY FOR THE ASSESSMENT OF THE PARENT-CHILD INTERACTIONS FROM 0 TO 3 YEARS

3th EDITION: Milano 28th, 29th and 30th of November 2011
San Paolo Hospital

RELIABILITY  April 2012
Monday 28th November

9.30  Introduction
Prof.Carlo Lenti

10.00 Attachment and emotional regulation during infancy
Prof.ssa Cristina Riva Cruognola

11.00 Presentation of the instrument: N.V.A.
Dr. Moioli Margherita

12.30 LUNCH BREAK

14.00 Analysis and codification of the videotapes
Dr. Moioli Margherita

17.00 Work conclusion

Martedì 29 novembre

9.30 Presentation and confrontation of various coding instruments: Care-Index, Biringen
Dr. Simona Gazzotti

11.00 Critical interpretation of the N.V.A. instrument in the light of the new theoretical contributions of the precocious interaction
Dr. Mauro Walder

12.30 LUNCH BREAK

14.00 Analysis and codification of the videotapes
Dr. Moioli Margherita

17.00 Work conclusion

Mercoledì 30 novembre

9.30 Maternal and Paternal behaviors in Adolescence: analysis of some interactions
Dr. Alessandro Albizzati

11.00 The characteristics of the precocious interaction in the pervasive development disorders: critical aspects in the use of the N.V.A. instrument
Dr. Monica Saccani

12.30 LUNCH BREAK

14.00 Analysis and codification of the videotapes
Dr. Moioli Margherita

17.00

Work conclusion

Prices:
for the San Paolo Hospital employees the course is free
applications with RELIABILITY request: 280 euro
applications without RELIABILITY request: 220 euro
for the students and AISMI or ANUPI associates with RELIABILITY request: 260
for the students and AISMI or ANUPI associates without RELIABILITY request: 210 euro

Bank Transfer:
Please transfer the required amount to the bank account indicated below:
Azienda Ospedaliera San Paolo
BANCA POPOLARE COMMERCIO E INDUSTRIA
Agenzia 051 Milano ospedale SAN PAOLO 20142
